Haligricity was founded by **Hali Sarah Parsons** *and is offered through IQProductionz — a living synthesis, refined through lived practice and offered from that same embodied place.*

WHY HALIGRICITY EXISTS

They did not suppress religion.
They suppressed your power.

Across every continent, sacred groves were cut down, ceremonies outlawed, elders silenced — because indigenous traditions shared one dangerous truth: the divine is not outside of you. It lives within you, within nature, within your ancestors, within the land beneath your feet.

That is the wound Haligricity was built to heal.

NEW AGE MYSTICISM SYNTHESIS

HALIGRICITY

The practice of wholeness — a living, breathing current of synthesized mysticism, woven from many traditions and named anew.

pronounced hah-lih-GRISS-ih-tee

GRAND RISING. · BE MORE YOU. · ASHE.

WHAT THE NAME HOLDS

Holy, Whole, Healed

The word **holy** comes from Old English *hālig*, from Proto-Germanic **hailagaz* — meaning whole, uninjured, of good omen. That same root gives us *whole* and *heal*.

So at its core: **holy = whole = healed.** Not set apart in a distant sense — but intact. Complete. Nothing missing.

The suffix **-icity** borrows from *electricity* — a living current moving through matter, invisible but undeniably real. **Haligricity** names a current, not a doctrine. You are not practicing it. You are conducting it.

> *"You are not broken. You have never been broken. You have been in a process — sometimes a painful one — of becoming whole. Haligricity does not fix you. It names what you already are."*

And unlike an *-ism*, a **city** is a place where everyone is welcome — no membership requirement, no worthiness test.

Eight roots. One current.

COINED BY SARAH

The Practice

TERM ONE

Varessence

Var- (Truth · Voice) + -essence (Essence · Presence)

The act of speaking your truth into light — not a prayer, but a declaration. Spoken in three forms: the Rising, the Zenith, and the Astral.

TERM TWO

Tetralty

A fourfold uniting — the human as conductor of current

The integration of **Feel · Say · Think · Do** — aligned so you become a clean conductor of the currency we carry.

The Daily Arc — three practice arcs move with the sun. The body thrives on rhythm; this is the trellis.

RISING	ZENITH	ASTRAL
Bowls, pranayama, mudra, qigong & yoga to open the day and retrieve the spirit from dream.	Earthing and a midday Varessence to center focus and authority.	Wind-down yoga, reflection, and a closing Varessence before sleep.

> *"I honor myself, on this day, and shine my light, along the way." — The Rising Varessence*
