The Temperate South Philosophy

The Temperate South Haligric Guide is designed for the four distinct seasons of Australia's southern states — where Melbourne is famous for having four seasons in one day, Adelaide offers a Mediterranean climate of dry summers and wet winters, Perth combines Mediterranean warmth with Indian Ocean influence, and Tasmania experiences the coldest and wettest conditions in Australia. Despite this diversity, all four share the fundamental four-season structure that the Haligric Tetralty system is built around: the Wood energy of spring, the Fire of summer, the Metal of autumn, and the Water depth of winter.

The Calendar Decoder

Schedules are organized by date groups (e.g., **1/8/15/22**). These represent the **Day of the Week** (e.g., every Monday). **Logic:** By repeating the same Tetralty each Monday for a month, you establish a consistent rhythm that allows your body to align with the Temperate South's clear seasonal shifts at a cellular level.

The Tetralty Formula

Every day is a Tetralty: **One Grain + One Green + One Protein + One Digestive Seal**. This four-fold structure mirrors the four pillars of Haligricity — Thinking, Feeling, Doing and Being — ensuring cellular satiety, elemental balance and metabolic equilibrium without digestive fatigue.. In the Temperate South, we emphasize the full range of four-season grains — light and sprouted in spring, cooling in summer, hearty in autumn, and warming in winter — alongside the extraordinary seasonal variety of temperate vegetables and the clean proteins that support each season's specific metabolic demands.

The Seal is a small digestive finisher taken after lunch and dinner. It completes the six Vedic tastes and needs no cooking: a warm Digestive Brew (cumin, coriander, fennel, ginger and lemon) in the damp and spring months, a cooling brew or fresh fruit in peak heat, a Spiced Orchard Anchor of gently stewed fruit in late summer and autumn, and a Mineral Jing Truffle (a date filled with tahini or nuts) in deep winter. No refined sugar — sweetness comes only from fruit, dates and warm spices.

1. Asparagus & Chickpea Spring Stir

The Tetralty: Brown Rice (Grain) + Asparagus (Green) + Chickpeas (Protein) + CCF Brew (Cumin, Coriander & Fennel) (Seal)

1. Cook Brown Rice. 2. Snap the woody ends from a bunch of local asparagus; cut into 3cm pieces. 3. In a pan, warm chickpeas with two cloves of garlic and a pinch of cumin. 4. Add asparagus to the pan; toss on high heat for 2-3 minutes until bright green and just tender. 5. Serve over brown rice; finish with lemon juice and a sprinkle of nutritional yeast. Asparagus is one of the first local vegetables to appear in the temperate south spring and its upward-moving energy matches the season perfectly.

The Tetralty: Quinoa (Grain) + Steamed Broccolini (Green) + White Beans (Protein) + Fennel & Mint Brew (Seal)

1. Cook Quinoa. 2. Steam broccolini for 3-4 minutes until bright and just tender. 3. Warm white beans in a pan with garlic, fresh thyme, and a squeeze of lemon. 4. Broccolini from the Adelaide Hills or Yarra Valley is outstanding in spring — its slight bitterness moves the Liver gently.

The Haligric Yearly Meal Guide

Volume 3: Winter Quarter · August: The Spring Quickening

*The Spring Quickening arrives as late winter loosens its grip — wattle flowers, longer evenings and the first asparagus and spring greens at the markets. This is **Early Wood**: the **Liver** begins to stir after winter's deep rest. We ease out of heavy stews toward lighter grains and fresh greens, keeping a little warmth on the plate so the body wakes gradually.*

Regional Tetralty Recipes (Temperate South August)

1. Broccolini & Red Lentil Quickening Bowl

The Tetralty: Millet (Grain) + Broccolini (Green) + Red Lentils (Protein) + CCF Brew (Cumin, Coriander & Fennel) (Seal)

1. Cook Millet. 2. Simmer red lentils with garlic, ginger and a bay leaf until just soft. 3. Steam broccolini for 3-4 minutes until bright. 4. Spoon lentils over millet and lay the broccolini on top. 5. Finish with lemon-tahini dressing. Broccolini's gentle bitterness wakes the Liver as the new spring cycle begins.

2. Spring Green & Lentil Stew over Quinoa

The Tetralty: Quinoa (Grain) + Baby Spinach & Asparagus (Green) + Lentils (Protein) + Fennel & Mint Brew (Seal)

1. Cook Quinoa. 2. Simmer lentils with leek, garlic, thyme and stock until tender. 3. Add chopped asparagus for 3 minutes, then stir through baby spinach until wilted. 4. Season with lemon juice and black pepper. 5. Serve over quinoa with fresh dill. A light, green stew that carries winter's last warmth into spring.
