THE HALIGRIC YEARLY MEAL GUIDE

Volume III: Temperate South Australia

Melbourne · Adelaide · Perth · Tasmania · Nourishing Through Four True Seasons

The Temperate South Philosophy

The Temperate South Haligric Guide is designed for the four distinct seasons of Australia's southern states — where Melbourne is famous for having four seasons in one day, Adelaide offers a Mediterranean climate of dry summers and wet winters, Perth combines Mediterranean warmth with Indian Ocean influence, and Tasmania experiences the coldest and wettest conditions in Australia. Despite this diversity, all four share the fundamental four-season structure that the Haligric Tetralty system is built around: the Wood energy of spring, the Fire of summer, the Metal of autumn, and the Water depth of winter.

The Calendar Decoder

Schedules are organized by date groups (e.g., **1/8/15/22**). These represent the **Day of the Week** (e.g., every Monday). **Logic:** By repeating the same Tetralty each Monday for a month, you establish a consistent rhythm that allows your body to align with the Temperate South's clear seasonal shifts at a cellular level.

The Tetralty Formula

Every day is a Tetralty: **One Grain + One Green + One Protein + One Digestive Seal**. This four-fold structure mirrors the four pillars of Haligricity — Thinking, Feeling, Doing and Being — ensuring cellular satiety, elemental balance and metabolic equilibrium without digestive fatigue. . In the Temperate South, we emphasize the full range of four-season grains — light and sprouted in spring, cooling in summer, hearty in autumn, and warming in winter — alongside the extraordinary seasonal variety of temperate vegetables and the clean proteins that support each season's specific metabolic demands.

The Seal is a small digestive finisher taken after lunch and dinner. It completes the six Vedic tastes and needs no cooking: a warm Digestive Brew (cumin, coriander, fennel, ginger and lemon) in the damp and spring months, a cooling brew or fresh fruit in peak heat, a Spiced Orchard Anchor of gently stewed fruit in late summer and autumn, and a Mineral Jing Truffle (a date filled with tahini or nuts) in deep winter. No refined sugar — sweetness comes only from fruit, dates and warm spices.

Root vegetables, hearty brassicas, dark leafy greens, and warming grains like oats, spelt, and black rice are the season's gifts.*
